My rationale

Some thoughts regarding presenting TOP awards at convention awards night....make it like the Oscar winning night....Have a powerpoint slide show stating what the award is/are and then on the next screen...the winner is.....(member of garden club) and have them come forward—. For winning DVD (as appropriate, show it during dinner hour.

For photo winners, show the winning photo along with the individual's name and Garden Club's name. Perhaps, President should send out a special invite to top winners indicating that they will be presented a top award..

I think this type of program would have great interest.
